

# PALLET SAFETY TIPS

**Wear safety gloves**

**Do not climb on racking**

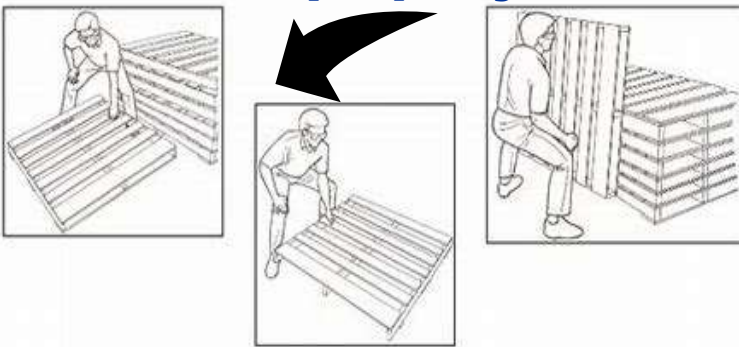

## VISIBLE INSPECTION:

- ✓ Remove cracked, weak, and damaged pallets
- ✓ Look for loose & protruding nails
- ✓ Keep areas clear: doorways, first aid area

## Handle properly:

**Never stack or lean pallets on their sides**

- **Use proper posture**
- **2 workers lift heavy loads**
- **DON'T drop or throw pallets**

## Stack and load properly:

**Distribute weight evenly when loading, and don't exceed maximum weight.**

**AVOID WALKING ON PALLETS**
